

Service homepage

URL https://www.nationalarchives.gov.uk/[service name]
HTTP method: GET
Parameters: order-type (optional). Values are 'bulk-order' or 'advance-order'
visit-length (optional). Values are 'one-day' or 'two-days'
camera-stand (optional). Values are 'camera-stand-yes' or 'camera-stand-no'
reading-room (optional). Values are 'main-room' or 'map-room'

Secure booking

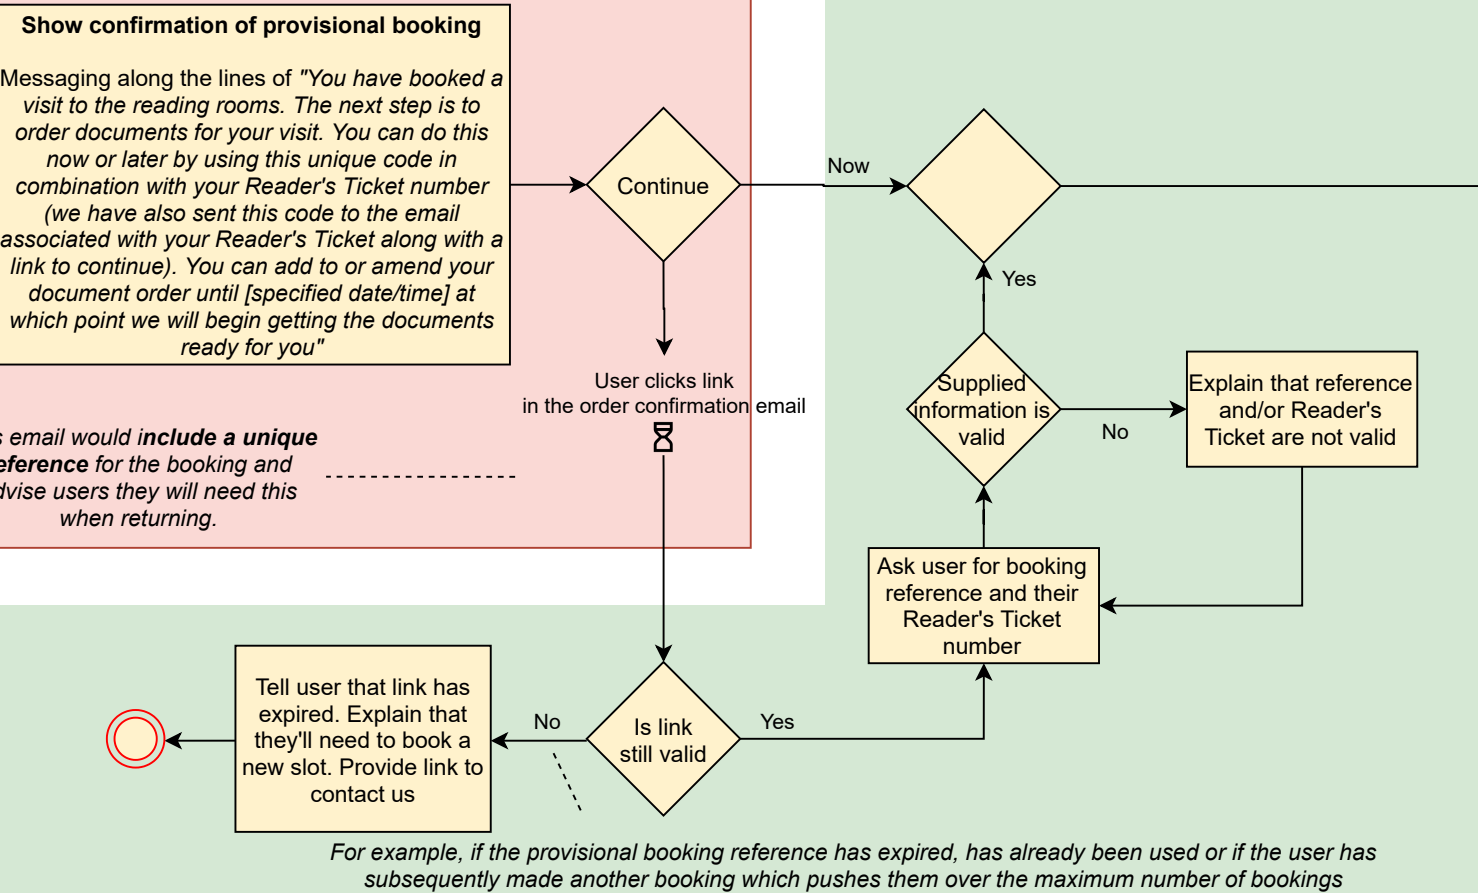

URL https://www.nationalarchives.gov.uk/[service name]/secure-booking
HTTP methods: GET (initial render), POST (Reader's Ticket submission)
Parameters: readers-ticket (required for POST. Where supplied, format must meet pattern)

Booking confirmation

URL https://www.nationalarchives.gov.uk/[service name]/booking-confirmation
HTTP methods: None. Only accessible via route redirection following validation of reader's ticket

Do we need to accommodate a situation where a user does not have access to the email address associated with their Reader's Ticket? If so, is this specific to the Kew Booking System or something that should be considered an additional feature for the Reader Registration and/or Single Sign On systems?

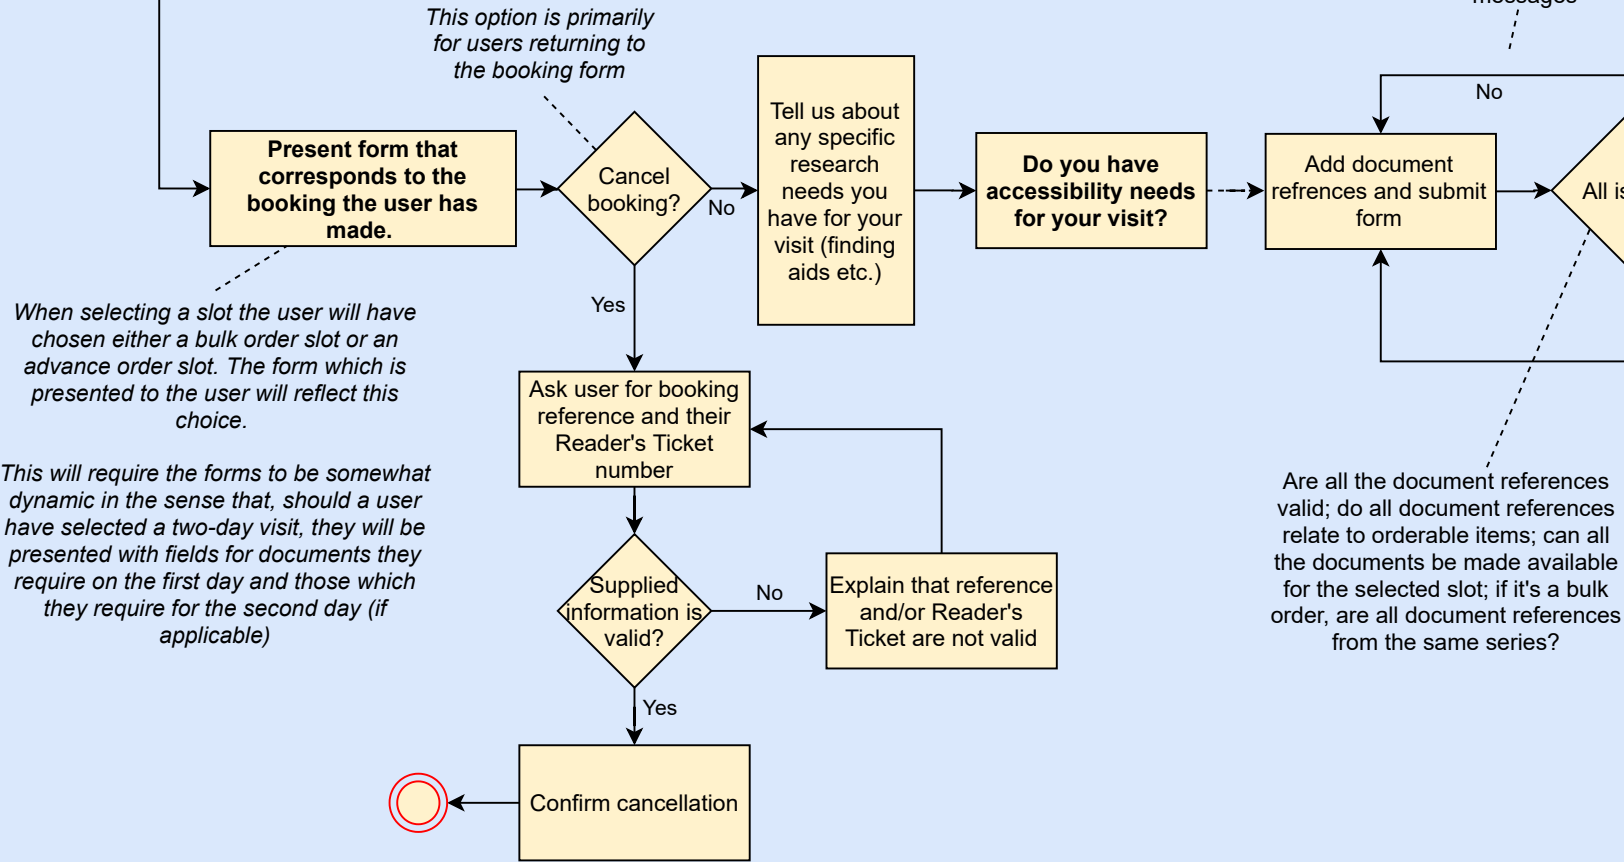

Return to booking

URL https://www.nationalarchives.gov.uk/[service name]/order-documents
HTTP methods: GET (initial render of form), POST (submission of data)
Parameters: readers-ticket, booking-reference (both required for POST). Both to meet meet pattern format

Order documents

URL https://www.nationalarchives.gov.uk/[service name]/document-order
HTTP methods: None. Only available via route redirect on completion of return to booking form or upon clicking 'continue' having just secured a booking

Order confirmation

URL https://www.nationalarchives.gov.uk/[service name]/confirmation
HTTP methods: None. Only available via route redirect on submission of booking form
