Within maximum bookings?

The flowchart below shows an options for determining if the user is within the maximum number of bookings.

Does the user currently have **less than the max** visits in a booking limitation period?

Max visits in a booking limitation period = 2
Booking limitation period = 4 weeks
Time period available = 5 weeks

Within max. **User can book any available date** ← Yes

No

For each currently available date

Would booking this date push the user beyond the maximum visits in a booking limitation period?

This **date should be displayed** to the user ← Yes

No

This **date should not be displayed**

Are there any dates to be displayed?

Show the available dates to the user ← Yes

Explain user is unable to book because they already have maximum number of bookings beyond
